Auto Multiple Choice - Bug # 278: Localized student list header is not recognized for annotation

Status:	Closed	**Priority:**	Normal
Author:	Hiroto Kagotani	**Category:**	
Created:	06/05/2014	**Assignee:**	
Updated:	02/07/2021	**Due date:**	

Description:	I use student list which has UTF-8 header name "□□" (which means "full name" in Japanese) for "name" column.
	This works well for association phase. For manual association, I can see students' full names in the manual association dialog.
	However for annotation phase, "%(IN)" in annotated answer sheets and "(IN)" in annotated PDF filenames are substituted with empty strings.
	Yes, "%(□□)" and "(□□)" work as expected, but I would like to use default settings if possible.

> "(IN)"

You mean @(ID)@ ?

Did you try adding □□ to _Edit/Preferences/Main/Internationalization/CSV name headers_ ?
