<b>Description:</b>	<p>On the marking tab, I click "set file", select a csv file, then:</p> <p>The drop-down list "primary key from this list" shows all column titles.</p> <p>The drop-down list "Code name for automatic association" only has the option "(none)".</p> <p>I'm using</p> <ul style="list-style-type: none"><li>- the separateanswersheet,noshuffle,postcorrect,insidebox options,</li><li>- the same answersheet for all students</li><li>- ubuntu and the default package: AMC 1104</li><li>- this student list (as csv file):</li></ul> <pre>&lt;pre&gt; numero,prenom,nom3 0666,corrige,a 1984,test1,saletes 2012,rouquier,JB 0000,test2,2 &lt;/pre&gt;</pre> <p>Thanks for your help.</p>		

### History

#### 12/03/2012 09:09 am - Alexis Bienvenüe

> The drop-down list "Code name for automatic association" only has the option "(none)".

This option will be used for automatic association, when a @\AMCcode@ command was used in the subject. Did you use this command? If not, only manual association will be available.

#### 12/03/2012 02:30 pm - red sea

add amcode like this:

```
<pre>
\AMCcode{numero}{4}
</pre>
```

#### 12/03/2012 02:34 pm - red sea

or horizontal:

```
<pre>
\AMCcodeH{numero}{4}
</pre>
```

#### 12/03/2012 11:50 pm - Jean-Baptiste Rouquier

Yes, I already have this code in the LaTeX file:

```
<pre>
Numéro de candidat:
```

```
\AMCcodeVspace=0.8em \medskip\par\AMCcodeH{numeroCandidat}{4}
</pre>
```

12/04/2012 10:42 am - Alexis Bienvenüe

> Yes, I already have this code in the LaTeX file  
Can you send your source file?

12/04/2012 11:20 pm - Jean-Baptiste Rouquier

- File *m\_postcorrect\_outsidebox.tex* added
- File *m\_postcorrect\_outsidebox.pdf* added

Foo bar baz are placeholders, appart from those substitutions this is the exact source code I use.  
I print only the last page (the answersheet), the actual questions are on distinct, separate material.

12/05/2012 08:42 am - Alexis Bienvenüe

> The drop-down list "Code name for automatic association" only has the option "(none)".  
With your source file, I get "numeroCandidat" as a choice in this list. Did you process marking before trying students identification? What is your AMC version?

12/05/2012 08:57 am - Jean-Baptiste Rouquier

Indeed, I expect "numeroCandidat" as a choice in this list.  
  
By "process marking", you mean clicking the "Mark" button in the Marking tab? Yes, I did that.  
  
I'm using the default Ubuntu package: AMC 1.1.1 (svn:1104)  
I'll try with the latest SVN version when I return to this project.

12/05/2012 09:01 am - Alexis Bienvenüe

> By "process marking", you mean clicking the "Mark" button in the Marking tab? Yes, I did that.  
That was it.  
Can you start AMC, switch to debugging mode (from Help menu), open the project, and post the produced log file?

12/05/2012 02:51 pm - Alexis Bienvenüe

I think the problem is corrected since revision r1187: please test with a recent AMC version, using for example the "test PPA":<https://launchpad.net/~alexis.bienvenue/+archive/test>. See also (in french) [message#502](#).
