

Auto Multiple Choice - Bug # 134: error msg with prepare

Status:	Closed	Priority:	Normal
Author:	red sea	Category:	
Created:	01/19/2013	Assignee:	
Updated:	01/22/2013	Due date:	
Description:	when i used terminall (in gui i used Xelatex): <pre><pre> auto-multiple-choice prepare --mode b --prefix ./ ./as.tex --data ./data/ </pre> i got this msg: <pre> ! Fatal fontspec error: "cannot-use-pdftex" ! ! The fontspec package requires either XeTeX or LuaTeX to function. ! ! You must change your typesetting engine to, e.g., "xelatex" or "lualatex" ! instead of plain "latex" or "pdflatex". ! ! See the fontspec documentation for further information. ! ! For immediate help type H <return>. !..... l.38 }))) (see the transcript file for additional information) No pages of output. </pre> regard</pre>

thanks, i got this pages:

<http://dev.man-online.org/man1/AMC-prepare/>

01/22/2013 09:32 am - Alexis Bienvenüe

These are old version of the man pages. See installed manpages or english documentation shipped with your AMC package for up-to-date information.
