Description:	Hi, I have a class with 200 students and when an exam is not recognized correctly I cannot do the manual association. The problem is that not all the names fit int the window. For example right now I can up to names that start with the letter "R", all the other names are down below and I cannot click on them. Possible solutions would be put a scroll bar, make the name boxes smaller or even show the selected name while pushing "TAB" in a little box at the top. Right now I have to split the file with the student names in two, so it all fits in the window. Thank you for this great software. Luciano

There should be a scrollbar... What is your AMC version? Can you post a screenshot?

Hi,

  I just checked and I am using the auto-multiple-choice 1.0.3-1ubuntu1. It is from the ubuntu repository. ![IMG]http://i41.tinypic.com/3g2ed.jpg[/IMG]!
Thank you for the quick reply.

The scroll bar only works for the Blue columns (copie, auto and manuel) not for the space with the names.

- Target version deleted (1.3.0)

- Status changed from New to Feedback

> auto-multiple-choice 1.0.3-1ubuntu1
You should try a recent version. You can find version 1.2.0 in the "AMC PPA":https://launchpad.net/~alexis.bienvenue/+archive/amc. If you did not end with some projects, please make a backup of them (zip file of the whole project directory) before upgrading AMC. Tell us if the problem remains with this version.

Hi,

  Thank you for the quick reply. Yes it works and I really like the new version.
Best,

Luciano
