Updated:	08/19/2014	**Due date:**	
Description:	One can change the font size of the options generated by AMCcode by directly editing the @automultiplechoice.sty@ file. But this edit has to be performed each time AMC is updated. It will be better if there is a command for changing the font size.

You mean the digits that are written inside the boxes for a @\AMCcode@? Try something like

<pre>
{\def\AMCchoiceLabelFormat#1{{'{'}}{\small #1}}\AMCcode{id}{8}}
</pre>

05/12/2013 12:51 pm - Anirvan Sarkar

- File AMC-DEBUG-2CqGJDex.log added

- File source.tex added

Yes
> Try something like
> @{\def\AMCchoiceLabelFormat#1{{'{'}}{\small #1}}\AMCcode{id}{8}}@

I can't seem to get it work.
I get an error: _Illegal parameter number in definition of \iterate._
If I use only @\AMCcode{id}{8}@ then there is no error.

I have attached the source file and log file.

If you use this code inside @\onecopy@, you have to double the @#@:
<pre>
{\def\AMCchoiceLabelFormat##1{{'{'}}{\small ##1}}\AMCcode{id}{8}}
</pre>

It works now !!!

It will be helpful if you add a note about it in the "Documentation of *Check-box presentation style.*":http://home.gna.org/auto-qcm/auto-multiple-choice.en/latex.shtml#idp5901888

- % Done changed from 0 to 100

- Status changed from New to Resolved

There is something in the documentation about @\AMCchoiceLabelFormat@ since revision r1267. Note that the documentation that can be found on the website is not the more recent one, but sticks with the stable version of AMC.
