

Auto Multiple Choice - Bug # 183: Quality of Scanned Papers deteriorates on composing Annotated papers

Status:	Closed	Priority:	Normal
Author:	Anirvan Sarkar	Category:	
Created:	06/02/2013	Assignee:	Alexis Bienvenüe
Updated:	08/19/2014	Due date:	
Description:	The image of scanned papers is of lower quality while composing Annotated papers as compared to annotated papers which are not composed. The quality should be same in both cases.		

History

Yes, that is strange... However, I rewrote annotation process, so can you try with a new version (1.2.1440 for example)?

10/01/2013 04:54 pm - Anirvan Sarkar

If you check the properties of both the pdf files you would notice that one was created by @GraphicsMagick@ and the other by @Ghostscript@. Maybe this was the reason for the difference in the quality.

I tried with the new version. The quality of scanned papers is now same for both cases. :-)

06/20/2014 07:01 pm - Anirvan Sarkar

- Target version set to 1.3.0

- % Done changed from 0 to 100

- Status changed from New to Resolved

08/19/2014 05:50 am - Anirvan Sarkar

- Assignee set to Alexis Bienvenüe

- Status changed from Resolved to Closed
