| Description: | For exams with separate answer sheet compiled in AMC-TXT it would be nice to have the ability to remove four large dots from the corners of questions pages. In LaTeX source we can do it by specifying @automarks@ option. It would be nice to have something similar in AMC-TXT, e.g. @*Automarks:1*@. | | |

Please test revision r1394, which adds the _AutoMarks_ option.

07/27/2013 03:34 pm - Nikola Z. Guscic

Working with revision 1.2.1394-5 when I try to specify option 'AutoMarks:1' I get the following error message:

@AMC-TXT(Line 4) Unknown option: AutoMarks@

07/27/2013 03:47 pm - Nikola Z. Guscic

Wait, i am sorry, it's a wrong version of AMC, I was using 1.2.1388-5 from Ubuntu testing ppa. I just noticed that version 1.2.1394 is still waiting to be built.

07/30/2013 12:38 pm - Nikola Z. Guscic

I've updated to the latest version 1.2.1394-5 and played with it for the last couple of days. @AutoMarks@ option works well and I haven't noticed any regressions. I've tried various settings and page sizes, no problem at all.

Thank you for implementing this so quickly!
