

Auto Multiple Choice - Bug # 215: Overlapping scoring output in annotations when using a separate answer sheet with three columns

Status:	Closed	Priority:	Normal
Author:	Roberto González	Category:	
Created:	09/29/2013	Assignee:	
Updated:	09/29/2013	Due date:	
Description:	I'm using AMC 1.2.1 on OpenSuse 12.2 (32 bits), within VirtualBox. I have created a separate answer sheet where the checkboxes for the questions are displayed in three columns. When you generate the Papers with Annotations you can see each question score, but the output for the first two columns overlap and you can't read them properly. See the attached file for more details.

With this layout, printing marks _in the margins_ is not good: you should use _near the boxes_ (_Edit/Preferences/Project/Papers annotation/Questions marks position_).

You're right.

I attach the file with the indicated setting, and it looks fine.

Thank you!!!!!!
