Description:	In the current version of AMC (version 1.2.1463, svn:1471) the @automarks@ option cancels marks printing on the subject pages and does not print the black and white encoded boxes and the four corner marks on them. If @\AMCcleardoublepage@ command is used after @\AMCform@ command, the encoded boxes and corner marks are printed on the blank page. It would be nice if @automarks@ option takes care of this and does not print them as there is no data to be collected from the blank pages. I have attached a sample .tex file which illustrates this case.		

History

10/15/2013 11:30 pm - Alexis Bienvenüe

- Target version set to 1.3.0

10/30/2014 11:42 pm - Alexis Bienvenüe

- % Done changed from 0 to 100

- Status changed from New to Resolved

Applied in changeset commit:7dfc202f7585.

11/16/2014 12:09 pm - Alexis Bienvenüe

- Status changed from Resolved to Closed
