Auto Multiple Choice - Bug # 239: {formula=} scoring does not cancel older formula setting

Status:	Closed	**Priority:**	Normal
Author:	Alexis Bienvenüe	**Category:**	
Created:	11/22/2013	**Assignee:**	Alexis Bienvenüe
Updated:	08/19/2014	**Due date:**	
Description:	It can be interesting to use a default scoring strategy using @formula@, such as @\baremeDefautM{formula=NBC-NMC}@. However, it should be possible to cancel this defaut strategy with @\scoring{formula=}@ to use a different strategy locally for a few questions. This does not work, as @\scoring{formula=}@ sets @formula@ to an empty value, leading to null scores.
