

Auto Multiple Choice - Bug # 247: AMC:latex_engine option does not work properly after r1495

Status:	Closed	Priority:	Normal
Author:	Anirvan Sarkar	Category:	LaTeX
Created:	12/20/2013	Assignee:	Alexis Bienvenüe
Updated:	08/19/2014	Due date:	
Description:	@AMC:latex_engine@ option does not work properly after r1495. I am attaching a .tex file which used to work properly before r1495. If we use it after r1495 it generates a _Documents have been prepared_ notification but no Subject, Solution and Catalog files are produced. My default latex engine is @pdflatex@ while in the .tex file I'm setting it to @xelatex@ via @AMC:latex_engine@ option. If you check the @Command Output Details@ you will notice that @AMC:latex_engine@ is not updating the LaTeX engine to @xelatex@.
