

## Auto Multiple Choice - Feature # 328: page- or columnbreaks

<b>Status:</b>	New	<b>Priority:</b>	Normal
<b>Author:</b>	math user	<b>Category:</b>	
<b>Created:</b>	12/11/2014	<b>Assignee:</b>	
<b>Updated:</b>	02/02/2016	<b>Due date:</b>	
<b>Description:</b>	No page- or columnbreaks between "Question n" and the digits 0 to 9 (@\AMCnumericChoices@).  Possibility to insert page- or columnbreaks after each question (see message#2855).  Thanks!

@\columnbreak@ does not work inside a @question(multx@).

So a command @\AMCcolumnbreak@ would be great. Otherwise I have to use @\vspace@ which is not that nice ...

Thanks!

Starting from version commit:6db2568546e7, you can use package option @asbox@ to include questions in vboxes in the separate answer sheet.
