Auto Multiple Choice - Feature # 351: style of digits in \AMCnumericChoices

Status:	Closed	**Priority:**	Normal
Author:	math user	**Category:**	LaTeX
Created:	04/25/2015	**Assignee:**	
Updated:	04/29/2015	**Due date:**	
Description:	When using @insidebox@ (and @separateanswersheet@) @\AMCnumericChoices@ displays the digits in normal font (not bold). However @outsidebox@ diplays these digits in bold. Could this be changed to normal font (not bold) by default? Or what is the command to change it? Thanks in advance for your help!		

History

04/25/2015 06:54 pm - Alexis Bienvenüe

- Tracker changed from Support to Feature

04/25/2015 07:06 pm - Alexis Bienvenüe

- Target version set to 1.3.0

This should be fixed with commit:71663983de2d.

You can now control the formatting redefining @AMCoutsideLabelFormat@. To get the old result back, for example:

<pre>
\def\AMCoutsideLabelFormat#1{\textbf{#1}}
</pre>

Great!

Thanks!
