

Auto Multiple Choice - Feature # 364: Report bad characters in question ids

Status:	New	Priority:	Normal
Author:	Akim Demaille	Category:	
Created:	06/03/2015	Assignee:	Alexis Bienvenüe
Updated:	06/03/2015	Due date:	
Description:	I inherited (LaTeX) questions from a colleague, and it failed to compile cleanly. Actually the assignments are fine, it is the catalogue that failed. It failed because there were underscores in some ids. I wish amc had reported this upfront: it took me quite a while to guess what was the actual issue. Thanks!
