Description:	<p>In separate answer sheet mode:</p> <p>It would be useful to (optionally) omit the boxes on the question pages (only print them on the separate answer sheet).</p> <p>So when using @choices@, only the labels A, B, C, ... (no boxes) are printed on the question pages (the students cannot tick boxes there). The boxes to tick will only be printed on the separate answer sheet.</p> <p>Thanks in advance!</p>

You can use @\AMCboxStyle@:

at the beginning of the exam description (inside @\onecopy@), use <pre>\AMCboxStyle{rule=0pt}</pre> to make the box borders invisible;

just after @\AMCformBegin@, set the rule back with <pre>\AMCboxStyle{rule=0.5pt}</pre>
