Description:	Is there a way to add the "explain" features (http://project.auto-multiple-choice.net/issues/238) to the individual solutions that are sent to students? Similar to what the "Solution" PDF shows, but adhoc for each version of the tests?

i found this solution with some "help":<http://project.auto-multiple-choice.net/boards/4/topics/4071>. Open the automultiplechoice.sty file ; at line 930, replace \ifAMC@correthead by \ifAMC@correc.
