

## Auto Multiple Choice - Bug # 58: LaTeX mode not supported in Presentation:

<b>Status:</b>	Rejected	<b>Priority:</b>	Normal
<b>Author:</b>	Nicolas Pettiaux	<b>Category:</b>	AMC-TXT
<b>Created:</b>	05/13/2012	<b>Assignee:</b>	
<b>Updated:</b>	06/03/2012	<b>Due date:</b>	
<b>Description:</b>	I want to include some indication in the Presentation: field, in a AMC-TXT formatted document, that the questions with a $\clubsuit$ may accept multiple good answer. I therefore want to include a $\clubsuit$ .  The generated LaTeX code does not compile.		

### History

**05/13/2012 02:00 pm - Alexis Bienvenüe**

- Priority changed from Urgent to Normal

- Target version deleted (1.2.0)

In your source file, you used the global option "`@LaTeX: 1@`" to be able to use the `@\clubsuit@` LaTeX command in the presentation. However, this option also concerns the questions, so that you must replace the `_` characters with `\_`, because this is a special character for LaTeX.

If you prefer giving up the "`@LaTeX: 1@`" option, you can also use the `\clubsuit` character directly in the source file, UTF-8 encoded.

Thanks for the precision.

I had found the idea to use the UTF-8 clubsuit directly.

**06/03/2012 01:43 pm - Alexis Bienvenüe**

- Status changed from New to Rejected
