Updated:	12/18/2012	Due date:	
Description:	This should be interesting to be able to write marks in both margins for two columns subjects, using the nearest margin for each mark. Maybe this is not so easy when the question is on both columns (the beginning at the bottom of the first column and the end at the top of the second column)...

From revision r1124, you can ask to put marks "in the margins", instead of the old mode "in one margin".
