- *Priority changed from Immediate to Normal*

Can you post a minimal complete source file that shows the problem?

02/20/2019 01:06 am - David Dixon

I'm working on it.

02/28/2019 05:52 pm - David Dixon

Identically configured systems (Ubuntu 18.04.2, AMC 1.4.0) using the same source files (via cloud) produce different results. One computer does it right, the other jams everything into the AMCCode field. I will compare \listfiles from the two computers in the next day or two.
