- Status changed from New to Resolved

This seems to be resolved since revision r829: please try.

03/07/2012 11:35 pm - Alexis Bienvenüe

See message#10 for a patch (and command to apply the patch) solving the problem for version 1.0.3-2 on debian/ubuntu.

03/10/2012 10:40 pm - Alexis Bienvenüe

This bug is also solved in version 1.0.4.

03/15/2012 09:41 am - Hiroto Kagotani

I think boxes zooms window has the same problem.

On a newly opened boxes zooms window, vertical scrollbar works well.

But selecting next page on the main window without closing boxes zooms window, the vertical scrollbar disappears.

I don't have this problem. What is your AMC version, windows manager?

- File zoom.png added

1.0.3, 1.0.4 and Revision r924 have the problem in my environment.

I am using XFce as the window manager.

I'm not sure I reproduced this bug, but please test revision r928 and tell me if it's better.

03/19/2012 02:28 am - Hiroto Kagotani

It solved the problem.

Thank you!

03/28/2012 10:18 pm - Alexis Bienvenüe

- Target version set to 1.1.0

- Status changed from Resolved to Closed
