</pre>

08/27/2012 04:41 pm - Alexis Bienvenüe

Ce bug ne concerne pas AMC, mais le port p5.12-net-cups de MacPorts. Essayez de chercher de l'aide sur leur système de gestion de bugs et leurs listes de diffusion...

08/30/2012 05:07 pm - Jean-Julien Fleck

Même problème chez moi, j'ai rempli un rapport de Bug sur MacPort ("#35899":<https://trac.macports.org/ticket/35899>)

11/17/2012 03:22 pm - Alexis Bienvenüe

Je n'ai malheureusement pas moyen de m'occuper de ce problème, car je n'ai pas de mac : avis aux amateurs !

Il reste encore la possibilité de faire tourner AMC dans une machine virtuelle du type "VirtualBox":<https://www.virtualbox.org/> sur laquelle on peut installer debian ou ubuntu...

08/17/2013 03:54 pm - Alban Mazerolles

Je viens d'avoir le même problème. Heureusement, j'ai trouvé la réponse sur le net :

<https://perso.univ-lyon2.fr/~brogniar/notes/amc-installation/index.html>

Simple à mettre en oeuvre et très efficace. L'installation se déroule comme un charme par la suite.
