

Auto Multiple Choice - Bug # 882: Impossible to run AMC

Status:	Closed	Priority:	Normal
Author:	Michel Perez	Category:	Installation
Created:	04/25/2023	Assignee:	
Updated:	04/26/2023	Due date:	
Description:	After a re-install of AMC, I get the following error message when trying to launch AMC: "Cairo.c: loadable library and perl binaries are mismatched (got first handshake key 0xf880080, needed 0xf900080)"		

History
